

## GRADUATE EMPLOYMENT SURVEY

6,466 full-time graduates and 825 follow-up graduates from NUS were surveyed in November 2017 and the overall response rates obtained were 80.6% and 72.1% respectively.

### NUS: 2017 GES Employment Rates<sup>1</sup> and Salaries of Graduates by Bachelor Degree

Degree	Overall Employment Rate <sup>2</sup>	Full-Time Permanent Employment Rate <sup>3</sup>	Basic Monthly Salary <sup>4</sup>		Gross Monthly Salary <sup>5</sup>			
			Mean	Median	Mean	Median	25 <sup>th</sup> Percentile	75 <sup>th</sup> Percentile
<b>Faculty of Arts &amp; Social Sciences</b>								
Bachelor of Arts	85.8%	61.9%	\$3,005	\$3,000	\$3,107	\$3,000	\$2,700	\$3,300

Source: Graduate Employment Survey jointly conducted by NTU, NUS, SIT, SMU and SUTD

#### Notes:

1. The employment rates refer to the number of graduates employed as a proportion of graduates in the labour force (i.e. those who were working, or not working but actively looking and available for work) as at 1 November 2017 (i.e. approximately six months after completing their final examinations).
2. Overall employment includes all types of full-time, part-time, temporary and freelance employment.
3. Full-time permanent employment refers to employment of at least 35 hours a week and where the employment is not temporary. It includes those on contracts of one year or more.
4. Basic monthly salary pertains only to full-time permanently employed graduates. It comprises basic pay before deduction of the employee's CPF contributions and personal income tax. Employer's CPF contributions, bonuses, stock options, overtime payments, commissions, fixed allowances, other regular cash payments, lump sum payments, and payments-in-kind are excluded.
5. Gross monthly salary pertains only to full-time permanently employed graduates. It comprises basic salary, overtime payments, commissions, fixed allowances and other regular cash payments, before deductions of the employee's CPF contributions and personal income tax. Employer's CPF contributions, bonuses, stock options, lump sum payments, and payments-in-kind are excluded.
6. Data on law, medicine and pharmacy graduates are obtained from a follow-up survey on 2016 graduates after they have completed their one-year practical law course/pupillage/housemanship/first-year residency/practical training. Data on architecture graduates are obtained from a follow-up survey on 2014 architecture graduates after they have completed their practical training.
7. The Bachelor of Environmental Studies degree is a multidisciplinary programme that allows students to specialise in either Environmental Biology within the Faculty of Science or Environmental Geography within the Faculty of Arts and Social Sciences.
8. \*\*: No data is shown due to the small number of graduates and/or low response rates.

#### Frequently Asked Questions:

##### 1. What is the difference between mean and median salaries?

The mean monthly salary is an average of the salaries of the full-time permanently employed graduates. The median monthly salary is the salary of the 'central' (i.e. 50th Percentile) graduate amongst the full-time permanently employed graduates when they are arranged by salary. It is useful to refer to these two indicators together. The median is a useful reference when the salaries are not symmetrically distributed (e.g. when the group contains graduates with exceptionally low or high salaries, especially when the number of respondents is relatively small).

For example, the median gross monthly salary for Bachelor of Business Administration (Hons) offered by NUS shows that 50% of the graduates are earning more than \$3,800, and the mean gross monthly salary is \$4,388. This indicates that there are some high earners who have raised the mean salary. In contrast, the mean gross monthly salary of Bachelor of Arts (Hons) graduates is relatively similar to the median gross monthly salary. This indicates that the salaries are more evenly distributed on both sides of the median for this group of graduates.

##### 2. What do the 25th and 75th percentile gross monthly salaries indicate?

If there are 100 students from that course who responded, then the 25th percentile (i.e. the lower quartile) gross monthly salary indicates that 25 graduates earn less than that salary, and the 75th percentile (i.e. the upper quartile) indicates that 75 graduates earn less than the gross monthly salary indicated.
